

JIBIN GEORGE

Full Stack Developer

jibingeorge148@gmail.com | +91 7306410104 | Bengaluru ,India

[Github](#) | [Linkedin](#) | [Portfolio](#)

CAREER OBJECTIVE

Full stack Developer skilled in building responsive and scalable web applications using Python, Django, React, and modern web technologies. Developed a fully functional boutique e-commerce platform using Django and a client-side expense monitoring application using HTML, CSS, and JavaScript. Proficient in working with MySQL and MongoDB, along with version control tools like Git and GitHub. Strong problem-solving skills with real-world operational experience in logistics and delivery systems.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, HTML5, CSS3, Java
- **Frameworks & Libraries:** Django, React, Bootstrap
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, ChatGPT, GitHub Copilot, Eclipse IDE
- **Soft Skills:** Analytical Thinking, Teamwork, Adaptability

PROJECTS

Boutique E-Commerce Web Application

[Github repo](#)

Tech Stack: Python, Django, HTML, CSS, JavaScript, MySQL

- Developed a full-stack e-commerce web application featuring user authentication, product catalog management, shopping cart, wishlist, and secure checkout functionality.
- Designed and implemented an admin dashboard for efficient management of products, customer orders, and user accounts.
- Built responsive and intuitive UI components to ensure seamless navigation and an enhanced user experience across multiple devices.
- Integrated backend and database operations using Django and MySQL to support scalable and efficient application performance.

React Quiz Application

[Github repo](#)

Tech Stack: React.js, JavaScript, HTML, CSS

- Developed an interactive quiz application using React with dynamic question rendering and real-time score calculation.
- Implemented core React concepts including useState, event handling, conditional rendering, and component-based architecture to manage quiz flow efficiently.
- Built responsive and user-friendly interfaces for answer selection, result display, and quiz progression.
- Focused on logic building and state management to create a smooth and interactive user experience.

Expense Monitoring Web Application

Github repo

Tech Stack: HTML, CSS, JavaScript

- Developed a client-side expense tracking application to record and categorize daily expenses.
- Implemented dynamic UI updates using JavaScript for real-time interaction.
- Designed a responsive interface for usability across different screen sizes.

EXPERIENCE

Operations Executive

Sep 2024 – Jun 2025

Nyber Logistics, Kannur

- Managed daily delivery operations and coordinated dispatch activities for timely order fulfillment.
- Monitored shipments, resolved routing issues, and handled delays in a fast-paced environment.

FullStack Development Intern

Aug 2025 – March 2026

Bsoft Education, Bengaluru

- Working on Python Full Stack technologies (Python, Django, HTML, CSS, JavaScript, React.js, MySQL).
- Building and testing real-world applications as part of training projects.
- Enhancing skills in backend development, frontend integration, and database management.

EDUCATION

Bachelor of Computer Applications (BCA)

Kannur University, Kerala

2021 – 2024

CERTIFICATIONS

- IBM AI Developer Professional Certificate – Coursera
- IBM Python for Data Science, AI & Development – Coursera
- Python Full Stack Development Program – Blearn Academy, Bengaluru (Aug 2025 – Mar 2026)
